Subject

This is what I have gotten from your website and my response....being native Hawaiian.

Proposed vision:

*The sanctuary is proposing that it expand its scope and direction to **protect and conserve** other living marine resources and submerged cultural heritage resources, in addition to humpback whales, within the sanctuary.*

What about **protecting and conserving** living HAWAIIAN peoples and their ways of life?

How we feed our families, how we make our livings...to this day. *Protecting and conserving other living marine resources and submerged cultural heritage resources* should NOT put a limit or destroy the culture and way of Hawaiians, Hawai'i, or its visitors.
